

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter is the conclusion of the research. This conclusion refers to the answer to the problem of the research that has been presented by the writer in the previous chapter. This chapter also contains suggestions that the writer gives for the future researcher or the reader.

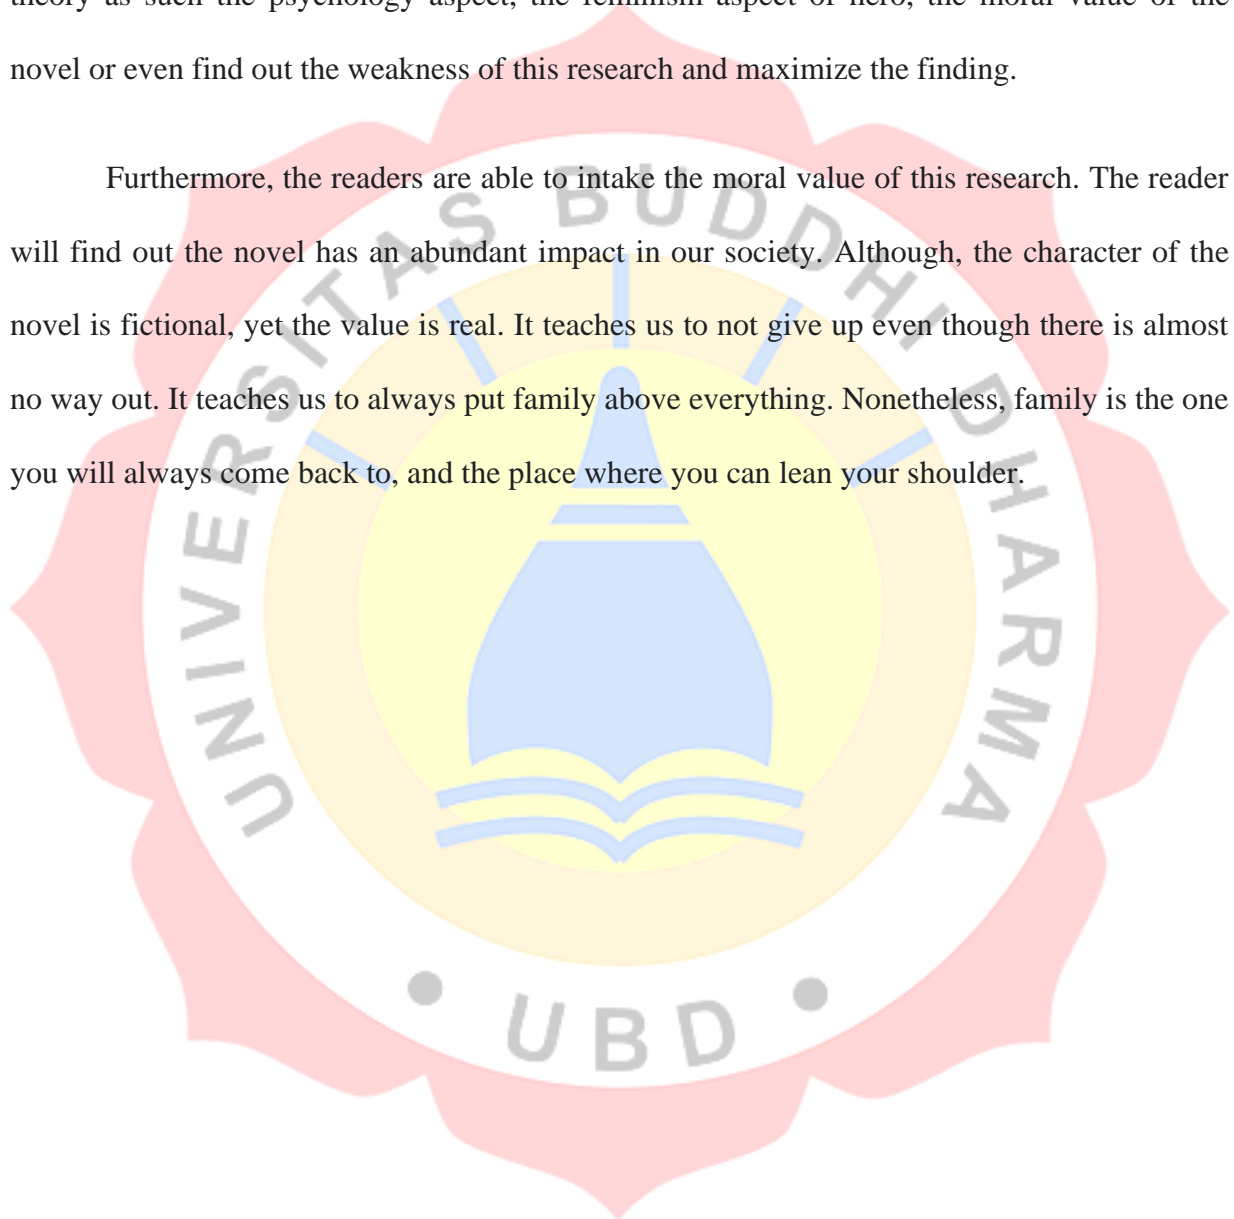

5.1 Conclusion

This study aims to reveal the Heroes' Journey of Katniss Everdeen within The Hunger Games 1st series. There are three main stages of monomyth cycles that are used to reveal Katniss' Journey. The cycle in the first series of The Hunger Games is almost fully formed. The Departure stage begins when Katniss volunteers herself as a tribute of District 12. As the hero, she sacrifices herself to protect her sister, Prim. As a consequence, she should take her journey by winning the 74th Hunger Games annual event. The Initiation stage comes when Katniss attempts to survive in the Arena. She faces several trials which indirectly change her identity. She becomes braver and wiser to take a decision after passing her this phase. The Return stage is initiated when Katniss succeeds to end the Games and return home. Even though Katniss returns home, she does not gain her Freedom to live since her life is still under President Snow's surveillance. She should hold a Victor Tour in order to show her grief to other families in each District. The result of the analysis found that this first journey introduces Katniss' life to initiate her heroine Journey by participating and winning the 74th Hunger Games. She gains true love pretending to act with Peeta at the end of the Games. This achievement is a trigger for Katniss to initiate her next Journey in the rest of the two The Hunger Games novels. It can be said that The Hunger Games first series is a beginning step of Katniss Journey to transforming herself to be a heroine at the end of her Journey.

5.2 Suggestion

Based on the conclusions, the suggestion that the writer suggests for the next researcher that is going to analyse the similar research, are expected to use this study as a basis or additional references with the development of problem from different perspective like using another theory as such the psychology aspect, the feminism aspect of hero, the moral value of the novel or even find out the weakness of this research and maximize the finding.

Furthermore, the readers are able to intake the moral value of this research. The reader will find out the novel has an abundant impact in our society. Although, the character of the novel is fictional, yet the value is real. It teaches us to not give up even though there is almost no way out. It teaches us to always put family above everything. Nonetheless, family is the one you will always come back to, and the place where you can lean your shoulder.
