SIMPULAN DAN SARAN

5.1. Simpulan

Berdasarkan hasil perancangan sistem yang sudah dilakukan dalam penelitian ini, dapat ditarik beberapa simpulan berikut:

1. Sistem yang dirancang terdapat fitur untuk memesan/*booking* lapangan secara *online* sehingga dapat mengatasi masalah efisiensi waktu. Pernyataan tersebut didukung dengan hasil pengujian TAM, dimana 58,46% menjawab setuju (76 Responden) dan 40,77% menjawab sangat setuju (53 Responden) pada pertanyaan sistem My Futsal menjadikan proses *booking* lebih mudah.
2. Sistem yang dirancang dapat menyediakan informasi seputar penyewaan lapangan futsal tanpa harus datang terlebih dahulu ke lokasi. Pernyataan tersebut didukung dengan hasil pengujian TAM, dimana 45,38% menjawab sangat setuju (59 Responden) dan 53,85% menjawab setuju (70 Responden) pada pertanyaan Sistem My Futsal bermanfaat bagi pengguna sistem.
3. Sistem yang dirancang dapat meminimalisir terjadinya bentrok jadwal karena setiap jadwal yang sudah di pesan, tidak dapat dipesan kembali oleh pengguna lain sehingga resiko bentrok jadwal dapat terminimalisir. Selain itu dapat memudahkan admin lapangan dalam mengelola jadwal penggunaan lapangan futsal mereka masing-masing. Pernyataan tersebut didukung dengan hasil pengujian TAM, dimana 41,54% menjawab sangat setuju (54 Responden) dan 57,69% menjawab setuju (75 Responden) pada pertanyaan sistem My Futsal meningkatkan produktivitas pekerjaan admin lapangan.

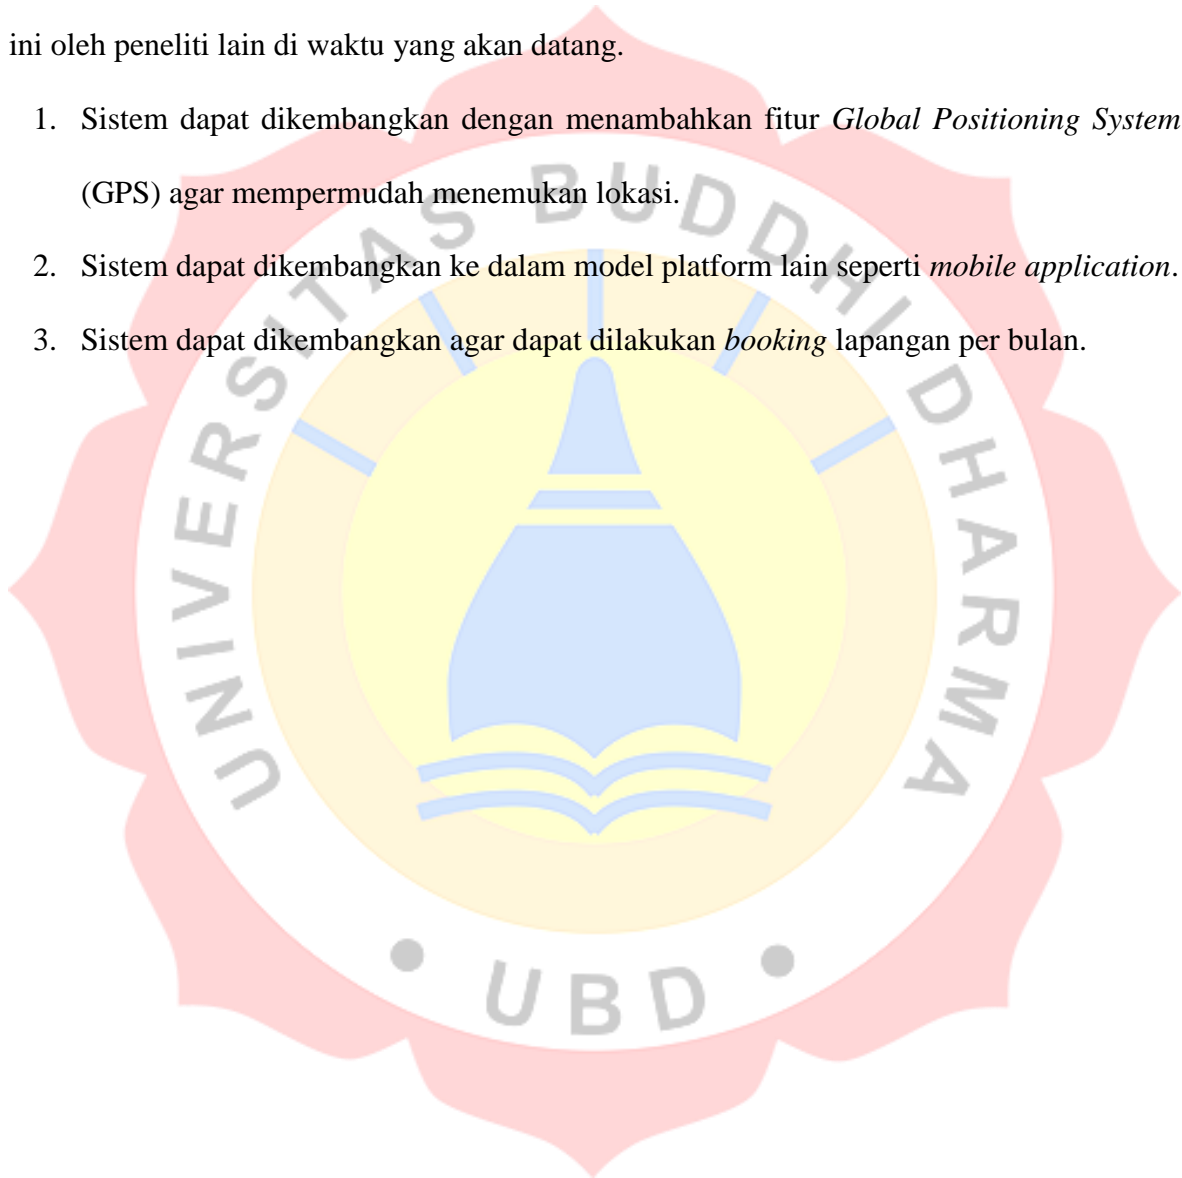

Hasil pengujian dengan metode TAM adalah sebagai berikut:

1. Variabel PEOU dapat mempengaruhi variabel BITU dengan nilai uji sebesar 3,682
2. Variabel PEOU dapat mempengaruhi variabel PU dengan nilai uji sebesar 24,197
3. Variabel PU dapat mempengaruhi variabel BITU dengan nilai uji sebesar 2,795

5.2. Saran

Berikut ini adalah saran yang dapat dilakukan untuk mengembangkan sistem informasi ini oleh peneliti lain di waktu yang akan datang.

1. Sistem dapat dikembangkan dengan menambahkan fitur *Global Positioning System* (GPS) agar mempermudah menemukan lokasi.
2. Sistem dapat dikembangkan ke dalam model platform lain seperti *mobile application*.
3. Sistem dapat dikembangkan agar dapat dilakukan *booking* lapangan per bulan.
